\$111,900

Designed by Experience. Built to Go Farther.

We started Geotrek in a Boulder garage with one goal: to build the best value-for-money camper van on the market. No dealer markups. No flashy gimmicks. Just quality systems, solid craftsmanship, and real-world usability.

Now, 300 vans later, we've learned what matters — and what doesn't. Customers kept coming back for the same upgrades: better power, better climate control, smarter storage, and cleaner design. So we built Flatiron around those insights.

This is the van you'd end up with after a year of tweaking — right from day one. It's road-tested, four-season capable, and built to go farther without costing more than it should.

We built Flatiron for the people who take travel seriously, and don't want to waste time chasing upgrades.

We hope it takes you somewhere incredible.

- *Mark & Grant*

Co-Founders, Geotrek Vans

GEOTREK

Built for Real Life on the Road.

Go now. Upgrade later.

Bear Peak gives you a rock-solid foundation with power, heating, water, and storage — so you can hit the road on your terms.

Power that covers the essentials

A 5kWh EcoFlow lithium battery, alternator charging, and 200W solar keeps your fridge, lights, fans, and devices powered with no stress.

Ready for real weather

Insulated walls, MaxxAir roof fans, and a diesel heater mean you'll stay comfortable in a wide range of temps — no propane required.

Eat, clean, and store with ease

Includes a deep sink, induction cooktop, Dometic fridge/freezer, and thoughtfully designed cabinetry. Nothing extra, just what works.

Simple plumbing, serious function

You'll get a 24-gallon fresh tank, 5-gallon grey tank, and a pressurized water system — enough for dishes, rinse-offs, and off-grid cleanups. Want more? Bear Peak is prepped for upgrades if your adventures demand them.

Flexible layout. Room to grow.

Bear Peak seats and sleeps up to 4, with a convertible lounge-bed system and a spacious rear garage designed for gear, upgrades, and whatever else the road brings.

Why People Choose Bear Peak

Built lean. Built right. Built for what matters.

144 AWD SPRINTER CHASSIS

The same rugged, go-anywhere chassis used across all Geotrek builds.

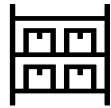

4KWH LITHIUM POWER (UPGRADABLE)

Enough power for the essentials — lighting, fridge, fans — with upgrade paths available up to 14kWh. for days without needing to recharge.

DIESEL HEATER

Stay warm without propane. Low draw. Proven reliability.

REAR GARAGE + FLEXIBLE STORAGE

Room for bikes, boards, or your next upgrade — without cramping the living space.

DESIGNED FOR DIYERS

Want a microwave? A ladder? A second battery? Bear Peak makes it easy to add exactly what you want, when you want it.

NO DEALER MARKUP

We build and sell directly. That means you get better components, pricing that makes sense, and a team that backs the product.

Frequently Asked Questions:

Bear Peak 2025

Q. How's this different from Flatiron?

A. Same chassis and layout. Bear Peak has a smaller battery (5kWh vs 10kWh), no A/C, and fewer built-in systems — which makes it more affordable and flexible for DIY upgrades.

Q. Can I add more later?

A. Yes. Bear Peak was designed with expansion in mind. You can upgrade the battery, add A/C or an outdoor shower, install Starlink, or even reconfigure the storage or seating.

Q. Is it still off-grid capable?

A. Absolutely. With lithium power, solar, alternator charging, and pressurized water, Bear Peak is designed to camp comfortably without hookups.

Q. Can I live in this van full-time?

A. You can — and many do. Bear Peak has the essentials for long-term travel. If you're planning full-time van life, you may want to customize it further, and we can help with that.

Q. Is there a bathroom?

A. Bear Peak doesn't have a built-in toilet or shower stall. It includes an outdoor hot shower and room for a portable toilet if you want one.

Q. How do I buy or reserve one?

A. Reserve with a \$1000 refundable deposit. We'll walk you through everything before you commit.

The Freedom Is Already Built In.

Whether you're heading out for a weekend or planning the long haul, Bear Peak is ready — and waiting for your story to begin.
